Profile

Computer Science and Engineering student at Independent University, Bangladesh, with a foundation in Python, Java and hands-on experience building full-stack web applications and a Flutter mobile app. Skilled in React, Node.js, PHP, MySQL, MongoDB and Firebase. Interested in Artificial Intelligence and seeking an internship to apply academic knowledge in a practical environment.

Education

Bachelor of Science in Computer Science & Engineering — 2022 – 2026
Independent University, Bangladesh — CGPA: 3.14 / 4.00

Higher Secondary Certificate (Science) — 2018 – 2020
Ideal School & College, Motijheel, Dhaka — GPA: 5.00 / 5.00

Secondary School Certificate (Science) — 2016 – 2018
Ideal School & College, Motijheel, Dhaka — GPA: 5.00 / 5.00

Certifications

Oracle Certified Foundations Associate: Agentic AI — Cert ID: 103544639AAI26OFA
Oracle University

CCNA: Introduction to Networks — Cert ID: 866f95f1-0eb2-429c-a0ef-5e1083fd72f1
Cisco Networking Academy, IUB

Introduction to Cybersecurity — Cert ID: 6899c31b-1c29-46f6-a26b-6ea9dedd0209
Cisco Networking Academy

Basics of Python — Blockchain ID: 8065-0060-5049
UniAthena (with Cambridge International Qualifications)

AI & Machine Learning Fundamentals
Grameenphone Academy (CodersTrust)

Skills

Programming Languages: Python, Java, SQL, JavaScript, PHP
Front-End: HTML, CSS, JavaScript, React (learning), Tailwind CSS, Bootstrap
Back-End & Database: Node.js, Express, MySQL, MongoDB, Firebase Authentication, Firebase Firestore
Mobile: Flutter, Provider
Networking: IPv4, IPv6, Subnetting, Data Communication Fundamentals
Tools: Git, GitHub, VS Code, IntelliJ IDEA, Google Colab, Scene Builder, Canva
Soft Skills: Adaptability, Teamwork, Problem Solving, Fast Learner

Projects

AreaFix BD – Smart Local Problem & Community Analytics Platform | *React, Node.js, Express, MongoDB, Tailwind CSS, Leaflet*

- Built a full-stack civic-tech app for reporting local issues with photos and map pinning, with role-based verification and resolution workflows.
- Added live analytics (area health scores, trends, heatmaps), real-time notifications and English/Bangla category suggestions.

CourseMate BD – Peer Tutoring & Academic Resource Platform | *MERN Stack*

- Built a MERN app with real-time chat, tutor booking, resource sharing and a student marketplace.
- Added JWT authentication, a role-based admin dashboard, analytics charts and API security hardening.

BUA.COM – Maid Hiring & Verification System | *PHP, MySQL, Bootstrap*

- Built a three-role app (Customer, Agent, Admin) for hiring agent-verified household workers, with filtered search, request tracking and reviews.

- Secured with PDO prepared statements, CSRF tokens and role-based access; added admin verification and complaint tools.

Real-Time Chat App | *Flutter, Firebase, Provider*

- Built a 1-to-1 messaging app with Firebase Authentication, live Firestore sync, user search and recent chats.
- Prevented duplicate chats using deterministic room IDs and Firestore transactions.

LifeDrop – Blood Donation Platform | *PHP, MySQL, JavaScript, Chart.js*

- Built a role-based platform linking blood donors and seekers, with emergency requests, donor matching, notifications and messaging.
- Added secure authentication and an admin analytics dashboard with donor verification.

Bangladesh Electricity Bill Calculator | *Python, Tkinter*

- Built a bilingual (Bangla/English) desktop app that estimates DESCO and Palli Bidyut/BREB bills using slab, lifeline, demand charge, VAT and rebate rules.
- Separated tariff data, a Decimal-based calculation engine and the GUI; added editable JSON tariffs and provider comparison.

Leadership & Volunteer Experience

General Member | Jukti – Club of CSE, IUB Sep 2024 – Present

- Worked with team members to design, build and maintain web applications using React.js and Node.js.
- Took part in code reviews, contributing to better coding standards and best practices.
